## Graduate Success Story

### Gerald Krepps, an October 2016 Maintenance Electricity & Construction Technology Graduate from Triangle Tech, Sunbury

*“I knew that I needed to get an education to find a new career,” said Gerald Krepps, a recent graduate from Triangle Tech’s Maintenance Electricity program.*

*Gerald was employed for over 12 years with a telecommunications company when he was laid-off. “I had employment to speak of, but no real marketable skills to get back in the game. I knew that I needed to get an education to find a new career, but didn’t have two years to get a degree. I was always interested in the electrical field. I liked Triangle Tech’s program, schedule, and the 16 month time frame to earn my degree,” said Gerald.*

*Gerald stated, “In preparation for my new career, I searched for jobs every day. In addition, my Career Advisor assisted me by connecting me to key employers I may never have had access to. There was a job fair at the school during my third semester of training, and I connected with a representative from Great Dane Trailers. I kept in contact with Great Dane throughout my last semester, and I am now employed with the company as an Electrical Mechanic.”*

*Gerald said, “I am using my skills and training by maintaining PLC’s, hydraulic presses and other automated equipment. I received a job offer before graduation and was able to go right from school to work. In the future, I see myself as a lead maintenance person and plan to give 110% to my new employer”. Great Dane is the leading manufacturer of high-performance commercial transportation equipment and the most recognized trailer manufacturer in the world.*

*“Triangle Tech changed my life by giving me an education to get started in my new career,” said Gerald.*

The following **301** graduates of Triangle Tech were recently hired.
