

# **TRIANGLE TECH GRADUATE UPDATES**

Check out our graduates and their success.

## **Bryan Peterson- 2014 Graduate Carpentry**

Graduated in February 2014. Hired with Wilsto Enterprises LP, a residential redeveloper focused on upscale urban-living projects in Pittsburgh. Career Services received the following feedback from Wilsto's Executive Director regarding Bryan's performance, "We need to find a few more people that fit the mold of Bryan Peterson as soon as possible. As I've explained, we are very, very happy with Bryan – he really is exactly what we are looking for in that position, so much so that we refer to him as the prototype for that position when explaining our structure to others. I want you to send me anyone you can who is like Bryan in terms of work ethic, character and commitment".

## **Jared Gedney- 2013 Graduate Welding & Fabrication**

Graduated in February 2013. Employed as a Welder 2 with Valmont Newmark in Hazleton, PA, the country's only provider of spun concrete, tubular steel and hybrid poles for the power delivery industry. Based on a recent alumni survey, Jared is progressing very well with his career and utilizing his skills and training to advance with the company.

## **Mateusz Lenart- 2013 Graduate Maintenance Electricity**

Graduated in May 2013. Employed as an Industrial Electrician with Albea, a global company, with offices and manufacturing sites in the U.S., Europe and Asia. Mateusz is employed at the company's Washington, NJ location. The company offers a wide range of packaging solutions for the large brands worldwide. Based on a recent alumni survey, Mateusz is repairing and maintaining various equipment and production machinery that requires knowledge of many different technologies including PLC's.

## **Jason Charlton- 2014 Graduate Maintenance Electricity**

Graduated in May 2014. Jason came to Triangle Tech after several successful years in the workforce and military. Jason was very proud of his skills, but felt that he was missing one thing...a degree! He wanted to take advantage of advanced career opportunities that he could apply for once he earned his degree, and he did just that. Jason had the opportunity to interview on-campus with recruiters from Alstom Grid in Charleroi, PA. Alstom is a world leading manufacturer of engineered solutions for electrical grid applications in utility and industry settings. The Group provides integrated and customized turnkey solutions such as alternating current and direct current substations from medium up to ultra high voltages. Jason was hired by Alstom and is currently a Field Service & Commissioning Technician. Jason performs electrical repairs & maintenance within power substations across the United States. Jason will be traveling to Italy soon for additional training.

---

*"At this time I would like to thank Triangle Tech and its Career Services Department because without them and their dedication to excellence I would have not been able to get the new career I have. I would not have received all of the different opportunities that I received without Triangle Tech's commitment to training and making sure that we strive for our best outcome no matter what we do. I would just like to say thanks again to the Staff and Instructors for making this a memorable experience."*

Check out our graduates and their success.

## **Daniel Cole- 2013 Graduate Maintenance Electricity**

Graduated in February 2013. Dan was tired of working dead-end jobs. He was planning on getting married and wanted to do more with his future. Dan enrolled in the ME program. He was an excellent student with a positive attitude. Career Services presented an opportunity to test/interview with Latrobe Specialty Metals on-campus. It was all good news from this point! Dan passed all of the exams and the hands-on mechanical test and is now employed with the steel company as an Electrical Technician earning over \$22.00/hour. To quote Dan, "I love my job and look forward to going to work each day. I am very grateful to Triangle Tech and all of the teachers and staff that helped me better myself."

## **Randy George- 2011 Graduate Maintenance Electricity**

Graduated in May 2011, began employment in May 2011 as an Electrical Maintenance Technician with U.S. Steel Corporation. Moved into a new position with Jones, Lange, LaSalle as a Maintenance Mechanic. Based on a recent alumni survey, Randy has advanced his career again and is now the Maintenance Manager with Mallet & Company located in Carnegie where he is earning \$50,000 + .

## **Joshua Burkett- 2011 Graduate Welding & Fabrication**

Graduated in October 2011. Josh was interested in using his welding skills in the Marcellus Shale industry. Immediately following graduation, Josh started working as welder with a new company in the area, "ARC Company." This was a great start for Josh to learn more about the oil & gas field and gain valuable experience. He moved on to a new position with Dan Beck Well

Services in Rossiter, PA. Because of his industry knowledge and welding experience, Josh was able to look at the larger employers in the oil/gas industry. In July 2013, Josh secured a position with Kinder Morgan, the largest midstream, and the third largest energy company in North America. Josh is earning \$30/hour as a Level 1 Pipeline Welder.

## **Allen Reiner- 2010 Graduate RHVAC**

Graduated in February 2010. Allen quickly entered the RHVAC field as a Service Technician with J.A. Sauer Company, Inc. After working with J.A. for a few years, Allen moved on to work for Pittsburgh TRANE in 2013. Not only is Allen a graduate, but he recently contacted Triangle Tech's Career Services Department as a potential employer as he is now in a position to hire new technicians for TRANE! Allen is the Resource Coordinator-Service for TRANE Maryland & Pennsylvania. Allen will be visiting Triangle Tech in August to interview upcoming RHVAC graduates. ■
